20FT HIGH CUBE IBC TANK SHIPPING CONTAINER – ISO CERTIFIED STEEL STORAGE UNIT

20FT CONTAINERS

CX-CID-DCB871 · SKU 20HC-IBC-ISO · New (One Trip) · Nov 16, 2026

OVERVIEW

A high cube is built exactly like a standard ISO container, just a foot taller: welded corten steel frame, corrugated corten walls and roof, and a marine-grade plywood floor over steel cross members. The extra height lives in the wall panels and door assembly, so strength and stacking ratings are unchanged. Cargo doors seal on rubber gaskets and lock with standard lockrod hardware. The taller shell is what makes this 20ft Containers the builder's favorite starting point.

As a conversion shell, the 20ft High Cube IBC Tank Shipping Container – ISO Certified Steel Storage Unit lets commercial builders run HVAC, conduit and a finished ceiling without squeezing occupants. That headroom is why offices and retail pop-ups almost always start from a high cube.

PRODUCT GALLERY

PRIMARY USES

- Agricultural storage for stacked totes and IBC tanks
- Storing tall equipment, ladders and scaffold frames upright
- Light-industrial work cells with overhead fixtures
- Tall-rack warehouse-style storage with full-height shelving
- Archive storage with an extra tier of shelving
- Spray booths and finishing rooms that need ceiling height

KEY FEATURES

- Full-height rear cargo doors for tall and palletized loads
- Eight ISO corner castings for lifting and tie-down
- Passive vents to keep condensation down
- Easy identification by the yellow-and-black height warning stripe on most units
- Interior height of roughly 8 ft 10 in, a full foot over standard
- Rubber door gaskets sealing the full opening
- Lockrod handles with padlock-ready hasps

BENEFITS

- Noticeably more cubic capacity in the same 20ft footprint
- Tall doorway makes loading bulky items far less awkward
- A full extra foot of interior height over a standard container
- Same corten construction and security as standard units
- Roughly 9 ft 6 in exterior height opens up real overhead room
- Shelving goes one tier higher, multiplying usable storage

INDUSTRIES SERVED

- Warehousing
- Workshops
- Fitness
- Agriculture
- E-commerce
- Film and events
- Construction
- Retail build-outs

SPECIFICATIONS AT A GLANCE

CONTAINER ID	CX-CID-DCB871
SKU	20HC-IBC-ISO
CATEGORY	20ft Containers
SIZE	20ft High Cube
TYPE	IBC Tank Compatible / ISO Certified / Steel Shipping Container
MATERIAL	Corten Steel
CONDITION	New (One Trip)
USE CASE	Storage / Transportation / Liquid/Bulk Compatibility
COLOR	Blue / Green / Grey / Custom
CERTIFICATION	ISO Standard / CSC Plate

Full specifications and a dimensional drawing are on this unit's Specification Sheet, available on the product page.

SITE PREPARATION CHECKLIST

- Plan drainage so water runs away from the base
- Keep a straight approach clear of vehicles and material piles
- Verify overhead clearance along the route; the loaded truck runs about a foot taller than with a standard unit
- Prepare a firm, level base: gravel, ties or blocks at the corners
- Leave door swing clearance plus room for tall items to be carried in upright
- Trim branches that hang below about 15 ft over the pad and approach

DELIVERY NOTES

- Clear truck access of roughly 12 ft wide along the full approach
- Overhead clearance of at least 15 ft; high cubes ride taller on the trailer
- Tilt-bed roll-off needs a straight run near twice the unit length
- An adult must be on site to approve final placement and sign for the unit

DOCUMENT CONTROL

DOCUMENT ID	CX-BR-DCB871-2026
REVISION	1.0
ISSUE DATE	November 16, 2026
CLASSIFICATION	Technical Specification - Customer Reference
