4M X 2.1M FLAT PACK CONTAINER STORE – GALVANISED

FLAT PACK CONTAINERS

CX-CID-E94C31 · SKU 34f9a343f945 · Nov 16, 2026

OVERVIEW

The 4M X 2.1M Flat Pack Container Store – Galvanised trades the welded monocoque of a shipping container for a bolt-together galvanized frame and insulated panel system, which is exactly what makes it cheap to ship and fast to raise. Wall panels are foam-core sandwich construction with finished faces inside and out. Assembly needs no special trades: sockets, drivers and a level. Because every joint is mechanical, the building unbolts and relocates as easily as it went up, and a quality-checked unit's panels are checked for fit and seal before packing.

Operations teams like flat packs because freight is the quiet budget killer: several container buildings travel stacked on one truck, then spread across the site as offices, guard posts and break rooms.

PRODUCT GALLERY

PRIMARY USES

- Break rooms and welfare units for crews
- Multi-unit linked buildings for larger floor plans
- Classroom and training-room expansions
- Pop-up retail kiosks and seasonal shops
- Rapid-assembly site office delivered on a single pallet stack
- Disaster-relief and emergency facility space

KEY FEATURES

- Galvanized frame for outdoor durability
- Repackable design for relocation to the next site
- Complete building shipped as one compact flat bundle
- Pre-hung insulated door with keyed lock
- Bolt-together assembly with common hand tools
- Insulated sandwich-panel walls and roof
- Wiring channels and junction provisions built into panels

BENEFITS

- Pre-cut wiring channels and fitted windows arrive ready
- A container footprint of real office space from a flat bundle
- Galvanized frame resists corrosion in outdoor service
- Assembles with basic tools and a small crew in hours
- Disassembles and moves again without demolition
- Ships flat, several units stack in one truckload, slashing freight cost

INDUSTRIES SERVED

- Mining and energy
- Education
- Security
- Retail
- Healthcare
- Construction
- Government
- Logistics

SPECIFICATIONS AT A GLANCE

CONTAINER ID	CX-CID-E94C31
SKU	34f9a343f945
CATEGORY	Flat Pack Containers
PRICE	$1,120.00
AVAILABILITY	In stock - ready to ship

Full specifications and a dimensional drawing are on this unit's Specification Sheet, available on the product page.

SITE PREPARATION CHECKLIST

- Plan forklift or liftgate offloading for the banded bundle
- Gather tools and a two-to-three person crew for assembly day
- Rough in electrical conduit to the planned junction point
- Prepare a level base: compacted gravel, slab, pavers or timber bearers
- Clear and level the assembly area with room to lay panels flat
- Check drainage so water sheds away from the floor frame

DELIVERY NOTES

- The bundle arrives by freight truck; standard access of about 12 ft wide is plenty
- Offloading needs a forklift on site or liftgate service booked in advance
- No tilt-bed run is required, but keep a firm, level spot for the pallet set-down
- Someone must be present to receive, count the bundle against the packing list and sign

DOCUMENT CONTROL

DOCUMENT ID	CX-BR-E94C31-2026
REVISION	1.0
ISSUE DATE	November 16, 2026
